Features

Gain Instant Access from anywhere

Manage workflows and large video files from anywhere. Remote work made easy.

Manage Large Video Files

Cloud file system for remote video editors, on the desktop. Instantly ingest or access hi-res video files for immediate access anywhere.

Cost efficiencies and licensing

Pay-as-you-go, simple licensing. Save over 80% when comparing to LucidLink.

Cross-platform compatibility

We support Windows, Mac, Linux, VMs, NFS, NAS, SAN and MS SQL Server.

Bring your own storage

Choose from AWS, Wasabi, Azure, Storj or over 50 cloud and on-premise storage services.

Fast, efficient and easy to setup for anyone

Simple setup, incredible speeds with an intuitive interface.

Multi-Cloud Backups

Choose up to 8 different endpoints for your backups. Sync to multiple clouds at the same time.

Technical Support

Amove delivers worldclass support, always ensuring fast response time should you experience any technical issues.
